

Strengths

- Scientific excellence
- Visibility
- Technical expertise
- Strong connection with industry
- Team cohesion

Weaknesses

- Low visibility internally at INRIA
- Lack of a massively used software developed by the team (> 10000 users)

Opportunities

- Long list ALUMNI
- Good local industrial and institutional ecosystem (on the cyber software tech domain)
- Openness to all software related actors

Threats

- decreasing INRIA support and agility
- Software sciences not in INRIA priority
- Teaching and pedagogical responsibilities
- Extreme human resources competition with industry
